

Dr. Chieh-Yuan Tsai and Dr. Chi-Yang Tsai led 15 graduate students to China during June 25, 2006 and July 2, 2006.

We visited Nanchang University and Huazhong University of Science & Technology (HUST) located in Nanchang, the beautiful capital city of Jiangxi Province and Wuhan, the capital city of Hubei Province respectively.

The purpose of the trip is not only to understand the current development of university's education in Mainland, but to promote academic interchange and the opportunity of cooperation in the future between Taiwan and Mainland.

During the visiting, we experienced the local campus life and increased our world vision. Also we widened our knowledge from the culture and landscape locally.

By this trip, we could understand the current situation about business operation in industrial circles in China and help our students getting prepared to obtain employment in Mainland.

Nanchang University

The campus:

Nanchang, the capital city of Jiangxi Province:

Huazhong University of Science & Technology (HUST)
